

Vigilance for Good Service.

EVERY Bell Telephone exchange has its wire chief. He is unknown to the subscriber, but his important task is to see that the talk tracks, both inside and outside the exchange, are kept constantly in good working order. Day and night, the work of testing the lines and apparatus goes on. Complaints are promptly followed up and breaks are often repaired before the subscriber knows of the trouble or is inconvenienced.

The constant vigilance of the wire chiefs keeps the 14,000,000 miles of talk tracks and the intricate central office equipment of the Bell system in readiness for instant service.
